## RELIEF VALVE

**KP6M / ...**

All performances and calibration are carried out by using hydraulic oil with viscosity approx. 46 cSt at 50 °C  
Temperature range: -20 °C...+80°C.  
Filtration absolute: 25µm

Code	Adj. pressure range bar	Standard setting bar (Q= 5l/ min)	Q <sub>nom</sub> l/ min	Colour
10	5..100	80	20	White
20	15..200	180		Yellow
32	20..320	250		Black

### ORDERING CODE

**KP6M /32 AB**

Type

Pressure range code: **10,20,32**

Connect relief valve at port: **A,B,AB2,P,AB**
